

# SWEDEN MUNICIPALS

Most Sweden Municipal stamps are scarce. They were printed in small quantities, only a few were saved, and surviving examples have been bought and tied up in current collections by a small but enthusiastic number of collectors in Scandinavia. Thus, there are not many municipal stamps on the active stamp market. Catalogue valuations are based broadly on quantity printed or apparent scarcity, but prices can vary widely when these stamps are offered for sale. Some of the stamps were in use for a long time - from the 1920s - but most have been lost when official archives were destroyed. Dates of issue are approximate. Some dates are based on printer's archive records (older stamps were printed by Oberg & Sons, later at Esselte AB), but dates of printing and actual use could at times be years apart. The Swedish alphabet order is followed here, with Ä and Ö at the end of the alphabet - so ÖREBRO and ÖSTERSUND come at the very end of this listing.
