## APRIL 2017

Special this time is a fine offering of Indian States, including much of the difficult George VI period. And of course, plenty of our usual European flavour material too, with collections, clearance lots, and some better single items.

Catalogue numbers and catalogue values are normally by SG (Stanley Gibbons), and the approximate quantity of stamps shown in brackets ( ).

As a guide for you, we use the following descriptions :

**Collections** : these contain mainly different stamps (apart from any blocks or specialised material), with fairly full coverage of the period stated. Normally on leaves - the make of printed leaf is stated when it is a major brand. "In album" means it comes with the binder in good condition (make is usually stated, "titled" means the album has the printed title made by the album manufacturer for that particular country); "on leaves" means that the collection is without a binder for economy of mailing.

**Ranges** : Either on stockcards, or selection of leaves, more scattered than a full collection, but still with a reasonably even spread of material and plenty to interest the collector.

**Selections** : a more restricted range, but often with better sets or individual items of value mentioned in the listing.

**Accumulations** : contain mixed stamps "as they come", sometimes with much duplication. Emphasis here is on quantity and cheapness; general condition and duplication are allowed for in the selling price of the lots. We don't have time to check every stamp by any means, so you should well find some bargains.

If possible, phone to check availability and to order. You can give your Credit Card number by phone at the same time, your lots will then be sent straight away. ( If you get an American-style ansaphone, this is indeed my office; please do leave your phone number, and I will return your call).

Postage : this is normally free, smaller lots sent by 1st class mail. Larger lots (2kg+) by Fedex Courier service. Boxes sold by weight are post free in mainland UK only. (Heavy parcels to N.Ireland, IoW, Channel Islands etc may cost a little extra). Registration/ Insurance, or courier for small lots: this costs £7 extra if required. Orders over £200: free registration/insurance is provided in the UK.

**To order, just quote the country + stock number (e.g. "Albania-5405)**

John Barefoot

## ADEN

5900 : 1937-1949 mint and used range of KGVI issues with various 1937 Dhows incl 8a mint, 2R used, 1939 set used (SG 16/27 cat £38), 1949 Silver Wedding u/m (SG 30/31 cat £40), 1951 surcharges u/m (SG 36/46 cat £80). Total cat about £270 (48 stamps) ... £75

## TELEGRAPH STAMPS of the WORLD

### **NEW BOOK RECENTLY PUBLISHED !**

This recent catalogue lists telegraph and telephone stamps of the whole world, by country. It is the successor to the old Hiscocks catalogue of 1982. It lists all regular stamps, both those issued by national post offices and those produced by private companies (but does not include prepaid stationery for telegrams, nor telegram seals). It does include telephone stamps. e.g. those of Canada, Great Britain, India-Patiala, Nepal, Belgium, France etc. Virtually all items are illustrated in full colour, some sections much expanded since Hiscocks, with up-to-date pricing for mint and used. 140 pages. Published 2013. ISBN 0-906845-70-X.

### **PRICE £30 + POSTAGE**

**(Post = £4 in UK, £8 in Europe, £12 for Overseas)**

For those wanting to acquire examples of the actual stamps right now, we have a website which lists many lots of revenue, telegraph, local and other cinderella stamps. See:

[www.jbarefoot.co.uk](http://www.jbarefoot.co.uk) and go to the sections

"Revenue Stamp - For Sale",

"Telegraph Stamps - For Sale", etc.

## CONTINENTAL ALBUMS EXPLAINED

We sell mainly European stamps and many come from Continental sources.

The following is a "rough guide" to the types of printed album and leaves :

**BOREK** : Traditional heavy-duty quality springback, dark-blue to black cover, black tooled binding. Pages printed in very dark green ink (tasteful; changed to black just for the issues after 1970), rounded page corners. These albums are no longer in production, but do give a distinguished home to a traditional collection, when you can find them. German-made to traditional German standards and my personal favourite.

**DAVO** : Dutch-produced album, navy-black twin-peg binder, with country name and coat of arms. Older style albums had the peg protruding to the front and back of the binder (inconvenient when posting!); new style albums solved this problem and the peg finishes inside. Otherwise, new and old-style albums are the same. Printed pages as normal.

**LIGHTHOUSE** : Albums in several styles in the past, modern album covers are now padded leather-effect springbacks with large capacity, gold bands on spine. Pages are printed; hingeless version are with transparent Hawids affixed in the individual places. German-produced.

**LINDNER** : Multiring binders in several styles and colours. All pages are hingeless: old-style pages have cellophane for each stamp between two glued paper layers (inconvenient, as tricky to insert/remove stamps); modern version has full plastic stock sheet overlying printed page (much better system, and handy if you collect both mint and used, there is space for both). Relatively expensive to buy new. German-produced.

**SAFE** : Multiring binders in several styles and colours, often boxed. All pages are hingeless; full plastic stock sheet overlying printed page (handy if you collect both mint and used, there is space for both). Relatively expensive to buy new. German-produced.

**SCHAUBEK** : Albums were in several styles in the past, but most bought by collectors over the past two generations were cloth-bound with two-post peg system. Old-style pages (pre-1950) have page frame with corners extended; more modern pages (post-1950) have rectangular neater frame. Hingeless version with transparent Hawids affixed in the individual places. Very popular range as affordable, well-made, neat, and a wide range of countries in their publishing plan. German-produced (was in DDR).

**YVERT** : French-produced very large albums and now not so popular because of their huge size. Plain or printed pages with over-decorative ornaments.

This guide is just for information so you will have an idea of the album style before you buy a collection. German albums are roughly all a standard large size, but each make is a few mm different from the others. The albums we sell are 2nd hand, containing stamps, but in good condition. We don't stock new albums (you could try Prinz/Vera Trinder Ltd).

But, bear in mind new albums at full retail may cost much more than the cost of the 2nd hand album containing a full range of stamps from us!
